How can we discuss Courtenay Sport without slipping into a slurry of clichés? Let's be honest about it, Courtenay are a true pioneers in Vauxhall turbocharging and one of the UK's most respected tuners. Courtenay are simply synonymous with Vauxhall modifications. See, there we go with the clichés. They are still at the top of the Vauxhall tuning game and today it's time to celebrate 25 glorious years in the business. And what better way to mark the occasion than with a great big party. This is a party complete with show cars, rolling road runs, competition prizes, free

food and a cracking pair of Sprint special editions specially built for the 25th anniversary.

Guests and loyal customers have travelled from all over the country to take part in the festivities and with them they've brought incredible examples of Courtenay cars from the past and present. MkII Cavaliers and a mint Courtenay Turbo Manta mix with Vauxhall's Astra 4S, Corsa VXR's, a VXR8 and Courtenay's own supercharged VX220; there's a slice of everything from Courtenay's two-and-a-half decades of doing what they do best: building seriously good Vauxhalls for fast road use. So, happy birthday Courtenay Sport and here's to the next 25 years!

Vauxhall even brought along one of their BTCC Vectras.
